

GP Opening Times at Easter

Top tips to keeping well in Wolverhampton:

- 1 Keep warm and look after your health.**
- 2 Can you treat your illness yourself? If not, can your local pharmacies help?**
- 3 Make an appointment with your GP.** You can now use the internet to book appointments with a GP, request repeat prescriptions for any medications you take regularly and look at your medical record online.
- 4 Not sure what to do?** Think you need to see someone urgently, but it's not life threatening? Call NHS 111.

You will speak to a highly trained call adviser who will assess your condition and, if necessary transfer you to a clinician for a second opinion. They can give you healthcare advice, or direct you to a local service that can help you best.

If it's a real medical emergency, such as choking, severe blood loss, or the patient is unconscious, please call 999.

**CALL
111**

**when it's less
urgent than 999**

Our GP Practices are working together to improve access to appointments over the holiday period. We have a range of Hubs open on evenings and weekends and these will also be open over the Easter period.

Can you treat your illness yourself?

If not, can your pharmacist help?

Wolverhampton
Clinical Commissioning Group

Coughs, colds and other minor illnesses will generally get better on their own. **Keep a well-stocked medicine cabinet** so that if you do feel ill, you can try treating yourself before you make an appointment to see a doctor.

Your pharmacist can also advise you on a range of minor illnesses and ailments, and it's often quicker and easier to pop into your local pharmacy, than it is making an appointment to see a doctor.

Don't forget to order your repeat medicines that you will need over Easter now so that you don't run out.
